

Egyptian Civil Aviation Authority

REPUBLIC OF EGYPT

Airport Emergency Planning

In 2000, Critical Path, Inc. was again hired by MITRE Corporation to provide Subject Matter Expert support to the Egyptian Civil Aviation Authority's Airport Certification Program. During 2000, the focus was on training and implementation of airport emergency plans.

Critical Path, Inc. developed the Airport Emergency Planning section of the Airport Certification Manual, the guidance documents for development of Airport Emergency Plans and conducted training for ECAA staff on the implementation and development of Airport Emergency Plans.

The work was conducted between January and December 2000.
