

Chicago Midway Airport

CHICAGO, ILLINOIS, USA

Privatization of Chicago Midway International Airport – Consortium

Critical Path, Inc. (CPI), provided subject matter expert support to the consortium lead by HOCHTIEF AirPort GmbH in its bid for the privatization of Midway International Airport (MDW) in Chicago, Illinois. CPI provided technical evaluations for the consortium of MDW's compliance with FAR Part 139. CPI also assessed and challenged ideas and strategies from the airport certification point of view that the Consortium submitted in their proposal to the City of Chicago.

The work was conducted between April and August 2008.
